

Dear Michael and MaryLoviola,

Your kindness
means more
than you know.

Thank you so much for granting me the honor of receiving your Medical Scholarship. This generous gift will help me to further my education and ultimately pursue a career in the biomedical engineering field. I'm looking forward to another four years of success at the Penn State Schreyer Honors College and your scholarship will definitely allow me to achieve this goal. Attached you will find my information for sending the award to the university.

2014

Thank you again,
Jessica Ledingham
